ASSIST

Claudio Comandini

Director of Engineering

@c_comandini

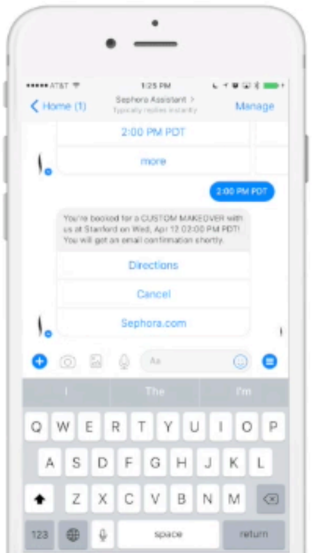
The enterprise chatbot platform for messaging and voice.

Messenger Google Assistant Twitter Amazon

We power brands like

Drive In Store Traffic

Sephora has seen an **11% higher conversion rate** versus any other channel to book in-store makeover appointments. This conversational interface makes the booking experience easy and instantaneous. Simply pick a store and service type and Sephora immediately responds with available dates and times. Then it's just one click to book!



Hey, curious how to build the best conversational experiences?

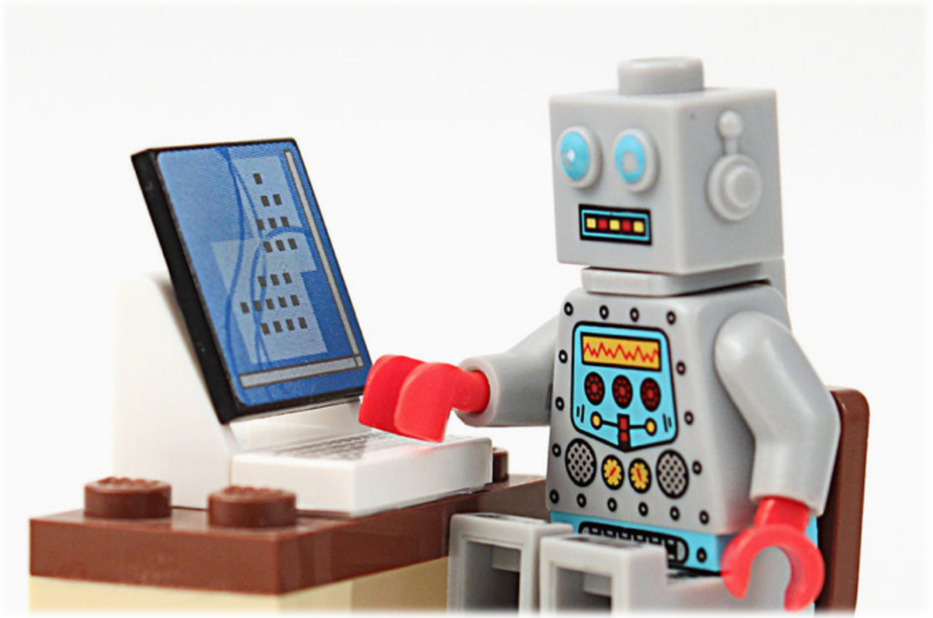
WHAT ARE CHATBOTS?



Chatbots are software programs designed to automate a task through a chat/conversation.

Chatbots **can** use AI/ML to simulate a conversation with a human and mimic the approach of a human.
